Conductive Thread - 3m

- COM2306

Three metres of conductive thread on a little card bobbin, an essential component of any wearables project!

These are the same little spools you'll find in our beautiful Bearables kits, and will come on either a bear or fox board. You'll only receive one but there's no difference between the two, they're just darn cute!

- approx. 0.15mm gauge
- 2ply (2x100x12µm)
- 36Ω per metre
- 3 metres included
- Steel stranded
  Warning: this is steel stranded wire so can be sharp, be careful!
